

Type AS-WT-T1

Multifunctional weighing terminal with ABS plastic housing, CE-M approved

Multifunctional weighing terminal with ABS plastic housing, functional 7-button keypad and backlit LCD display with extra-large digits (52 mm high), easy to read from any angle and from a long distance. A wide range of functions and interfaces are available for industrial applications. CE-M approved (OIML R-76 / EN 45501).

The weighing terminals can be ordered both without a load receptor and as complete scales, in combination with the following platforms.

Adjustment and conformity assessment (manufacturer's initial verification) available at no extra charge, in combination with the above platforms.
